

LASTING LEGACY PARK VETERANS MEMORIAL

Gillette, Wyoming

Campbell County Parks & Recreation retained the services of STEINER THUESEN PLLC to renovate a major portion of the existing veterans memorial and expand upon it. The existing memorial wall was retained. Existing hardscape area was removed and enlarged. Four large custom bases were designed to accept sculptures owned by the County. The bases include donor plaque areas for recognition of those who made financial contributions to the project. Three custom bases for plaques were also designed. A key feature of the memorial is the addition of a petrified tree trunk that acts as the base for a battle cross and boots in memory of a fallen soldier. The project was finished off with landscape areas and lighting.
